BUDGET RESOLUTION

Whereas, the City Manager has submitted the Proposed Budget for the fiscal year beginning July 1, 2015 and ending June 30, 2016 outlining the estimated fund balances, estimated revenues and the planned expenditures for the City of Munising from July 1, 2015 to June 30, 2016; and

Now, Therefore, Be It Resolved by the Munising City Commission that:

Section One: The City Commission adopts this Proposed Budget, as modified by the City Commission at its budget hearing, as the Budget for the City of Munising for the fiscal year beginning July 1, 2015 to June 30, 2016 and established the millage rate at 18.0197 mills and 1.9803 mills for the headlee rollback for the General Fund.

June 15, 2015

Section Two: The Department Heads of the various departments as designated by the City Manager, are responsible for keeping the expenditures within the appropriation and shall not exceed any appropriation without prior approval of the City Commission.

Section Three: That from time to time, as the situation indicates, the City Commission may amend the budget, provided that expenditures do not exceed revenues and available surplus.

This resolution declared adopted this 15th day of June 2015.

Rod DesJardins, Mayor

Sue Roberts, City Clerk

2. Monthly Reports - Committee - Fire - Police - WWTP

There were no comments on the monthly reports. The WWTP report was not in the packet.

3. DDA - Partnership Updates - Kathy Reynolds

Kathy Reynolds stated that Arrow Construction has been downtown redoing the sidewalks, they have guaranteed to be finished by July 4th, it is moving quickly. She then stated that the bike racks have been placed around town, most people like them but did not understand that you can actually chain a bike to them. Pictured Rocks Days was extremely successful, the City Crew and around 25 volunteers made the event go smoothly. Approximately 83 vendors; about 10,000 people over the two days; this was good for Munising business'; 2016 the event is planned for June 11 and 12 planning has already begun. Reynolds felt there was a great team effort by everyone. Plus the City has been getting tons of media coverage, also good for the community. Tuesday at the Legion 7:00 p.m. will be an introduction period for the new Park Superintendent. Reynolds also reminded everyone that Ginger Zee with Good Morning America will also be in town on Wednesday, at Miners Castle 7:00 a.m. - 9:00 a.m.

D. NEW CITY BUSINESS

Moved by Commissioner Dolaskie to amend the agenda to include A1. Munising Bay Trail Network and Logging Operation. Support by Commissioner Bornslaeger.

Agenda Amended:

A1. Munising Bay Trail Network and Logging Operation

Mike Verhamme presented pictures before the logging started and during the logging process. Logs were placed on the trail. He indicated that at this point they do not have a trail to rebuild. He felt they would have to do clean up first then remark the trail and start from there. He also felt that none of the volunteers would be willing to start redoing what they already

June 15, 2015

had accomplished. Rhonda Lassila stated that this has been disheartening. Verhamme stated that they would have been willing to do some clean up currently it is a big mess. He quoted a price of \$5.00 per foot to rebuild the trail (2.5 miles), but in the condition it is in it could be much more than \$5.00 per foot. He suggested that the City take a bull dozer up and make about 20 foot wide corridor and do the clean-up. Then a smaller dozer would have to make a 5 foot swipe, to get the trail back in order. Rhonda Lassila stated that there has been thousands of volunteer hours put into the trail and now after the logging it is devastating. Verhamme indicated that the City is holding \$27,500.00 that they put up to go towards the trust fund grant, they are ready to ask for the money back and put it into Valley Spur's trails. Mayor DesJardins stated that he understands everyone dismay but having been a logger before he knew what the area would look like once it was cut, also he stated that he tried to convince the Munising Bay Trail Network people to wait until the logging was finished before they started constructing the trails. Verhamme indicated that if this area had been logged in a different way there would not have been the amount of damage that they are facing now. Rob Lindquist stated that the area is decimated, he does understand the forest management aspect. He wondered if through the trust fund grant the layout could be changed, he did acknowledge that it would probably cost a lot more because of the extra work needing to be done. The only option is to redesign the whole trail system. Mayor DesJardins asked if it was possible to redesign the trail to come out to St. Martins Hill and connect to Valley Spur's trail. Verhamme felt that was a viable option, the problem is all the time and energy already put into the trail that was damaged. Mayor DesJardins stated that he could see parts of the trail and asked if it was possible to hand cut and connect to what is partially there. Verhamme stated that anything is possible. The topography is totally different at this point, anyone that would be brought in would ultimately have a totally different vision of what the trail system would be like. This would all have to be run through the trust fund grant; and the volunteers that worked on the trail for the last three years efforts are gone. Verhamme stated that they could come up with some figures and come back to the Commission. His next question was who, would they hire to fix the problem the City caused. Verhamme also stated that finding someone capable of designing a new trail system would be very limited. Another question was would the City be able to help financially in getting the trail cleaned up and finished. It was explained by Mayor DesJardins that he was aware of what the area would look like once the logging was done, the reason the City went ahead with the logging project was to eliminate the hazardous beech trees. The City could not promote the trail system knowing that there were dangerous trees along the trail. It was discussed that on the hillside there are numerous beech trees that need to be cut, DesJardins stated that we are prohibited from cutting those hillsides. Verhamme stated that we have a huge problem if that is where the trail is going. He indicated that you can't possibly go up that hill without encountering the beech trees. Commissioner Dolaskie stated that one of the reasons for cutting the trees was because of hazardous trees and some revenues for the City. Commissioner Nettleton cited a couple of incidents concerning beech trees, the Park Service had a tree fall and kill a child, they went in and cut all the trees down, also at the log slide Nettleton stated he was amazed by the number of beech trees that were knocked down, all because of liability. Verhamme stated he thought there was a way the beech trees could be cut and included in the trust fund grant. Mayor DesJardins stated again that four years ago everyone was aware of the logging that would take place, the damage was expected. He stated that bids could be gotten to refurbish the area and go from there, or if they want they can pull their funds and the City can drop the project all together. Commissioner Nettleton stated that we cut over \$67,000.00 worth of trees because of the liability involved. Commissioner Dolaskie indicated that he thought the Commission would entertain reviewing new quotes to revamp the project. Kathy Reynolds asked about a passport grant as a possible way to generate money to help this project out. DesJardins asked Verhamme if he could get one of their experts to come in and give us an idea of what has to be done to fix this situation; DesJardins said to wait until the job is complete then we can get a better idea of costs involved in the repair.

1. Resolution Authorizing DDA Bonds, Series 2015
